SOME RECOMMENDATIONS

Read the recommended books and more if you can. The more you are exposed ahead of the training the more benefits you will get out of it. We provide a list of "classic" references hereafter.

Students are coming from very different background, culture, schools, and type of practice. We sometime conduct an inception assessment to better adapt the content of our Course. The more you know ahead of the course the more you will learn!

If you have not done so before, start a personal practice.

In any case increase your practice time as much as possible.
